

Check list of things we haven't squared away on:

My missing expense account.

Chile material for me to take to State Dept.

What you will want me to find out for Mexico story (you were going to let me know-something about Manzanillo, or secret shipments from that port to axis powers).

Stationery, cards, etc. We spoke of this and I was to speak to Bob. I didn't get a chance and I wrote and asked you to please discuss it with him.

I have just written Bob suggesting that I come up toward the end of the week in connection with the government page. If he says okay we may be able to get together whatever night it is that I'm in NY and sit down and get a lot of things talked about or even something done about them.
